

## CHIPBOARD EMBELLISHMENTS

PD4360 WORD SENTIMENTS

PD4361 HEART-ITUDE DOILY

PD4362 AMORE LACE EDGES

## LAYOUT INSTRUCTIONS

- Cut the following from the patterned paper (PLEASE NOTE: measurements are given in inches)
  - DARLING:**
    - 7 $\frac{3}{4}$ "W x 12"H
  - HEARTFELT:**
    - 6 $\frac{1}{4}$ "W x 8 $\frac{1}{4}$ "H
    - 4 $\frac{1}{2}$ "W x 3 $\frac{1}{2}$ "H (cut two)
 Sand edges of the **HEARTFELT** photo mats
  - GIFT OF LOVE:**
    - 6"W x 8"H
    - 4 $\frac{1}{4}$ "W x 3 $\frac{1}{4}$ "H (cut two)
- PHOTO SIZES**
  - 5 $\frac{3}{4}$ "W x 7 $\frac{3}{4}$ "H (trimmed 6" x 8" photo)
  - 4"W x 3"H (two photos)
 Sand the edges of all the photos
- Mat all the photos on their respective photo mats. Raise some of them on cardboard.
- Fussy cut flowers, leaves, ticket stubs, and ornate buttons from the **FOREVER YOURS** and **JE'TAIME** paper. Also cut the XOXO square, "Love never fails" and the mauve word strip from the **SPECIAL LOVE** paper.
- Join the **CHERISHED** (KEEP THE LACE STRIP AT THE BOTTOM FOR LATER USE) and **AMORE** papers to form the background. Adhere the **DARLING** piece flush with the center, on the right side of the layout, covering the floral design on the **AMORE** paper.
- Apply black alcohol ink to the chipboard doily. Dilute *Wax Lyrical* water based wax (silver) or silver acrylic paint and apply a layer over the alcohol ink. As the wax dries, it reacts with the pigment in the alcohol ink, creating wonderful colour variations that tone in with the colour scheme of the layout.
- Apply a mixture of *Eggplant* and *Raisin Alcohol Ink* to the chipboard hearts of XOXO shape. Once it is dry, apply a layer of *Nuvo Glimmer Paste* (Rich Cocoa) to these chipboards and allow to dry.

8. Cut the filigree chipboard strip in half lengthwise, and colour with the same alcohol inks than the hearts and XOX shape. One dry, paint on a layer of *Wax Lyrical* water based wax and allow to dry before adding *Nuvo Glimmer Paste* (Rich Cocoa). Allow to dry completely.
9. Colour the word sentiment by applying diluted *Wax Lyrical* water based wax to it with a paintbrush.
10. You are now ready to assemble the layout. Layer the embellishments in clusters to the left and right of the layout. Overlap some of the embellishments, so that nothing “hangs in the air”, but rather forms a cohesive image. Cut the word sentiment and lace strips and adhere it to the sides and between the photographs, so that this connects the two sides of the layout.
11. Finally, use a very wet brush dipped into a mixture of *Eggplant* and *Raisin Alcohol Ink* to create splatters across the background.
