CHIPBOARD EMBELLISHMENTS

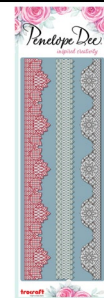

PD4210 WORD SENTIMENTS

Cut word sentiments from frame. Apply *Ground Espresso Distress Spray Stain* to engraved word sentiments. Lightly spritz with water and dab with roller towel. Heat set. Gently dab sponge into *Copper Pearl Cosmic Shimmer Opal Polish*, ensuring that there is not too much polish on the sponge and swipe across raised areas of engraved chipboard, taking care not to fill engraved sections. Repeat with areas of *Golden Glow Cosmic Shimmer Opal Polish*, blending colours as desired. Apply *Ground Espresso Distress Paint* to non-engraved word sentiments and frame. Heat set or allow to dry. Lightly spritz water on sponge applicator on *Copper Pearl Cosmic Shimmer Opal Polish*. Dab sponge into polish and apply to painted surface. Repeat with areas of *Golden Glow Cosmic Shimmer Opal Polish*, blending colours as desired.

PD4211 CHRISTMAS IN THE HEART

Cut 'Christmas in the heart puts Christmas in the air' from wreath. Set wreath aside for another project. Apply *Ground Espresso Distress Spray Stain* to engraved word sentiments. Lightly spritz with water and dab with roller towel. Heat set. Gently dab sponge into *Copper Pearl Cosmic Shimmer Opal Polish*, ensuring that there is not too much polish on the sponge and swipe across raised areas of engraved chipboard, taking care not to fill engraved sections. Repeat with areas of *Golden Glow Cosmic Shimmer Opal Polish*, blending colours as desired. *Cosmic Shimmer Opal Polish* is a water-based and fast drying medium, which contains a base colour polish with the addition of mica in a complementary colour, achieving beautiful opalescent effects. The containers have a built in applicator sponge making them easy to apply to a variety of surfaces.

PD4212 ACRYLIC CHRISTMAS LACE

Apply a drop or two of *Foundry Alloy Alcohol Ink* to acrylic side of cranberry and spruce lace pieces. Apply a few drops of *Alcohol Blending Solution* to *Alloy Ink* and swirl to blend. Apply a few drops of *Alcohol Blending Solution* to felt on *Ink Blending Tool* and swipe across *Alloy Ink*. This will create a 'mirror' effect when acrylic lace with print is facing up. Adhere to project with mylar red tape. *Distress Alloys* are reflective metallic acid free inks specially formulated with unique metal powders to create intense metallic highlights when combined with Alcohol Inks and Alcohol Blending Solution on non-porous surfaces.
